

# Managed Project Service

## Delivering Strategic, Scalable and Controlled IT Outcomes

Saros Consulting helps organisations deliver complex IT initiatives with clarity, precision, and measurable impact. We offer structured project management for individual initiatives and flexible, scalable managed services for organisations needing broader portfolio or multi-project delivery. In both cases, we ensure technology investments are aligned to business objectives, executed efficiently, and delivered with quality and governance.

### Project Management

#### From Planning to Successful Delivery

We manage every project lifecycle stage, from early planning to delivery and post-implementation support. We focus on outcomes, accountability and transparency, ensuring consistent performance across all engagements. Senior consultants bring proven methods, hands-on experience and practical insight to keep projects on time, in scope and within budget.

#### Core capabilities include:

- **Technology and Partner Evaluation:** Independent advice to help you select the right solutions and delivery partners
- **Cross-Functional Collaboration:** Strong engagement between IT, business and vendors to maintain alignment
- **Risk and Issue Management:** Proactive identification and resolution to minimise delays and cost overruns

- **Business Integration:** Seamless alignment of new systems and processes with day-to-day operations

### Managed Project Services (MPS)

#### Scalable Delivery Without Heavy Internal Overhead

Our MPS provides end-to-end management for IT portfolios or multiple projects, offering a fixed price, scalable solution that adapts to your needs. Ideal for organisations seeking a single partner to manage complex programmes, MPS combines strategic oversight with operational execution.

#### We deliver:

- **Strategic Alignment:** Projects prioritised to directly support business growth
- **Flexible Resourcing:** The right expertise at the right time, avoiding overstaffing or skill gaps
- **Governance and Quality Assurance:** Rigorous controls,

structured reviews and transparent reporting

- **Single Source Accountability:** One point of contact for clear, fast and consistent decision-making
- **Full Lifecycle Support:** From business case development and vendor selection to execution and service transition

## Additional Expertise

### Specialist capabilities to enhance delivery:

- **Vendor Oversight:** Full lifecycle vendor management focused on quality, cost and performance
- **Change Enablement:** Clear communication, early engagement and support to drive adoption and minimise disruption
- **Knowledge Transfer:** Structured transition and upskilling to equip internal teams for long-term success.
